

Redelegation of Domain Names under the Top Domain .se

Please print out this page and fill in the below information. Send the form to NIC-SE by fax to +46 8 545 857 29 or by letter to NIC-SE, Box 5774, SE-114 87 Stockholm, Sweden. First check the domain name on our search page, <<http://www.nic-se.se/domregsearch.shtml>>, so that the information is correct. This form should only be used if it is not possible to get the current operator to give confirmation. Redelegation without the current operator's confirmation involves an increased risk of services such as e-mail ceasing to function. – Please write in block capitals and with a clear and legible pen!

The undersigned (authorized signatory or equivalent) has failed to get the current operator to confirm redelegation of DNS data to a new operator, and authorizes the below operator to send new DNS data for the domain name within 7 days from the indicated e-mail address to ompekning@nic-se.se.

Domain name:.....

Holder (personal or company name):.....

Company code/personal identity number:.....
